Global

Head of IT and Innovation

📍 Ireland (Limerick) or Spain (Barcelona), Hybrid

ABOUT US AND THE POSITION

Amesto Global is a partner led boutique firm offering bespoke solutions to companies expanding both domestically and internationally. We are client focused and embrace technology in all aspects of our work practices. We work hard to automate our processes as much as possible to deliver timely information to our clients.

We are seeking a visionary and experienced individual to join our leadership team as the *Head of IT and Innovation*. If you are passionate about driving technological advancements, fostering innovation, and leading a high-performing IT team, we want to hear from you.

KEY RESPONSIBILITIES

1. Strategic Leadership:

- Develop and implement the IT and innovation strategy aligned with the overall business objectives.
- Drive innovation initiatives that enhance operational efficiency and elevate the company's competitive position.
- Collaborate with executive leadership to align IT and innovation efforts with broader organizational goals.

2. Technology Architecture and Infrastructure:

- Define and implement robust and scalable technology architectures.
- Ensure the stability and security of the company's IT infrastructure.
- Evaluate emerging technologies and recommend adoption strategies.
- Oversee API integrations to streamline processes and enhance connectivity.

3. Innovation Management:

- Champion a culture of innovation, encouraging cross-functional collaboration and ideation.
- Drive the development and implementation of innovative solutions to address business challenges.
- Establish and manage relationships with external technology partners.

4. Project Management:

- Oversee the successful delivery of IT projects, ensuring they are completed on time and within budget.
- Implement project management best practices and methodologies.

5. Code Writing and API Integrations:

- Hands-on experience in writing code and developing software solutions.
- Lead and guide the team in developing, testing, and deploying software applications.
- Drive API integrations to enhance system interoperability and data exchange.

QUALIFICATIONS, SKILLS & REQUIREMENTS

- Bachelor's degree in Software Engineering, Computer Science, or a related field.
- 5-10 years of progressive experience in software engineering, API integrations, and IT leadership roles.
- Proven track record of successfully leading and managing high-performing IT teams.
- Strong strategic thinking and problem-solving skills.
- In-depth knowledge of current and emerging technologies.
- Excellent communication and interpersonal skills.

WHAT WE OFFER

- In both our Barcelona and Limerick locations, we have a flexible policy on starting times. Overtime may be required at certain periods. We pride ourselves on fostering team unity while working closely with management and fellow employees to nurture trust and build rapport with our clients.
- An opportunity to work with a diverse portfolio spanning different industries and international locations.
- Salary is negotiable based on experience.
- Benefits package and hybrid working available.

APPLICATION DETAILS

If you are excited about the prospect of leading IT and innovation initiatives, driving API integrations, and contributing to a dynamic and forward-thinking organization, please submit your resume and a cover letter detailing your relevant experience to **Conor McFadden** at:
